DECLARATION

I hereby declare that all the information given above is true and correct to the best of my knowledge

PROJECTS

STUDENT MANAGEMENT SYSTEM :

Developed a dynamic Student Management System using HTML, CSS, and JavaScript with full CRUD (Create, Read, Update, Delete) functionality. Enables efficient student data handling through an intuitive interface. Focused on DOM manipulation and client-side logic for a seamless user experience.

WEATHER APP

Built a cross-platform Weather App using React and Capacitor, deployed as an Android mobile application. Integrated with a public weather API to fetch real-time weather data based on city input. Delivered a responsive, mobile-friendly UI with smooth user interaction and clean design.

FAKE JOB DETECTOR

Designed a data-driven Fake Job Postings Detector using Python and Streamlit. Leveraged natural language processing and machine learning techniques to classify job listings as real or fake. Enabled users to test job descriptions with an interactive, web-based interface.

CURRENCY CONVERTER

Created a responsive Currency Converter using HTML, CSS, and JavaScript. Integrated with a free exchange rate API to perform real-time currency conversions between major currencies. Focused on user-friendly design and precise arithmetic handling.

CERTIFICATIONS

- Completed a value added course in "Fullstack Development using Java" at Dhirajlal Gandhi college of technology
- Completed Python Course in NSDC through Skill India Digital Hub
- Completed Introduction To Frontend development course in Simplilearn

ACHIVEMENTS

- Won 2nd prize in Technology Diggers which had been held in paavai engineering college
- Won a second prize for the Co - Curricular in the year 2024-2025
